INDEX TO VOLUME XLVIII

Absaroka Range, Wyoming (R. T. Chamberlin), 679

Absaroka Range, Wyoming, geology along the southern margin of the: discussion (C. M. Bauer), 324

Absaroka Range, Yellowstone Valley, Montana (L. Horberg), 296

Accumulation of peat, rate of, in Bermuda (A. S. Knox), 778

Age of Absaroka Range, Wyoming (C. M. Bauer), 324
- of dikes in Pacific Northwest (G. E. Goodspeed), 175
- of dune systems in southern High Plains (F. A. Melton), 137
- of faulting, southern California (W. J. Miller), 408
- of isolated transverse dune ridges in southern High Plains (F. A. Melton), 137
- of loess and lake silts in Indiana (W. D. Thornbury), 460
- of Mistassini series, Quebec (G. W. H. Norman), 520
- of sand dunes in southern High Plains (F. A. Melton), 143
- of transverse dune series, southern High Plains (F. A. Melton), 137

Akermanite, formation of (N. L. Bowen), 248

Albanel Lake, Quebec (G. W. H. Norman), 520

Alden, William C. Cited on geology of Yellowstone Valley, Montana (L. Horberg), 288, 290, 291, 295

Alluvial fan deposits, Santa Fe formation, New Mexico (C. S. Denny), 86

Analysis of regional fault pattern in Pryor uplift, Montana (D. L. Blackstone, Jr.), 616

Anchored dune forms (complex) in southern High Plains (F. A. Melton), 135

Anderson, Alfred L., and Veral Hammerand. *Contact and endomorphic phenomena associated with a part of the Idaho batholith*, 561

Anderson, G. H. Cited on pseudoclastic process of replacement (A. L. Anderson and V. Hammerand), 576

Antevs, Ernst. Cited on age of Lake Estancia (F. A. Melton), 143
Cited on length of postglacial time (A. S. Knox), 779

Aplitic dikes of Pacific Northwest (G. E. Goodspeed), 176

Apparatus for forming artificial helictites (L. C. Huff), 644, 645

Aragonite helictites (L. C. Huff), 659

Armored mud balls (H. S. Bell), 1

Artesian water, condition for (M. K. Hubbert), 913

Artificial gypsum flowers (L. C. Huff), 652

Artificial helictites and gypsum flowers (L. C. Huff), 641

Artiodactyla in Herculaneum, Missouri, region (E. C. Olson), 54

Ash formations of the island, Hawaii. By Chester K. Wentworth. Review by Raymond E. Janssen, 111

Asymmetric anticlines, Pryor Mountains, Montana (D. L. Blackstone, Jr.), 604

Asymmetric folds passing into faults, Pryor Mountains, Montana (D. L. Blackstone, Jr.), 604

Atwood, Wallace W. The physiographic provinces of North America. Review by Louise Barton Freeman, 1023

Augen gneiss of Idaho batholith (A. L. Anderson and V. Hammerand), 575
- origin of (A. L. Anderson and V. Hammerand), 584

Axelrod, Daniel I. *A record of* Lyonothamnus *in Death Valley, California*, 526

Baker, A. A. Cited on geology of southeastern Utah (D. L. Blackstone, Jr.), 614

Bald Ridge Butte, Washington (A. L. Anderson and V. Hammerand), 562

Balk, Robert, and Rudolf Ruedemann (eds.). Geology of North America. Review by Louise Barton Freeman, 221

Ball, the low and, of the eastern shore of Lake Michigan (O. F. Evans), 476

Balls, armored mud (H. S. Bell), 1

Bancroft, Dennison, and Francis Birch. *New measurements of the rigidity of rocks at high pressure*, 752

Banding of shallow-type dikes, Koolau Range, Oahu (C. K. Wentworth and A. E. Jones), 993

Barcan dunes (complex) in southern High Plains (F. A. Melton), 131
  age of (F. A. Melton), 140

Barcan dunes (simple) in southern High Plains (F. A. Melton), 115
  age of, 137

Basalt dikes in Pacific Northwest (G. E. Goodspeed), 175

Basin, Bighorn, diastrophic behavior around the (R. T. Chamberlin), 673

Basins and ranges, development of, in Beartooth-Bighorn region (R. T. Chamberlin), 701

Bastin, Edson S. *Discussion: A note on pressure stylolites*, 214
  Review of Principles of economic geology. By Wm. H. Emmons, 446
  Cited on hydrothermal origin of aplites in Ontario (G. E. Goodspeed), 192

Bateman, J. D. *Stratigraphy and correlations in the Birch–Slate Lakes district, Northwestern Ontario*, 619

Batholith, Idaho, contact and endomorphic phenomena associated with a part of the (A. L. Anderson and V. Hammerand), 561

Bauer, C. Max. *Discussion: Geology along the southern margin of the Absaroka Range, Wyoming*, 324

Bays, elliptical, in South Carolina and the shape of eddies (C. W. Cooke), 205
  hypotheses of origin of, 205

Bays, South Carolina, comparison of with shape of eddy (C. W. Cooke), 210

Beartooth Range, Montana (L. Horberg), 275

Bedding fissility, physical characteristics and genesis of (W. J. Mead), 1009

Bedding foliation, physical characteristics and genesis of (W. J. Mead), 1009

Behavior, diastrophic, around the Bighorn Basin (R. T. Chamberlin), 673

Behre, C. H., Jr. Review of The volcano-seismic crisis at Montserrat, 1933–37. By Frank A. Perrett, 449

Bell, Hugh Stevens. *Armored mud balls*, 1

Bennett, Hugh Hammond. Soil conservation. Review by Louise Barton Freeman, 560

Bermuda, the peat deposits of, and evidences of postglacial changes in sea-level (A. S. Knox), 767

Berry, Edward W. Contributions to the paleobotany of Middle and South America. Review by Louise Barton Freeman, 112

Betula in Bermuda (A. S. Knox), 774

Bevan, Arthur. Cited on "summit peneplain," Beartooth Range, Montana (L. Horberg), 287

Bighorn Basin, diastrophic behavior around the (R. T. Chamberlin), 673
  Montana (D. L. Blackstone, Jr.), 590
  Wyoming (C. M. Bauer), 327

Bighorn-Beartooth development, Wyoming (R. T. Chamberlin), 678

Bighorn River, Montana (D. L. Blackstone, Jr.), 591

Billings, M. P. Cited on diabase dike, Medford, Massachusetts (F. A. Melton), 178

Biotite-quartz diorite of Idaho batholith (A. L. Anderson and V. Hammerand), 570
  origin of, 583

Birch, Francis, and Dennison Bancroft. *New measurements of the rigidity of rocks at high pressure*, 752

Birch–Slate Lakes district, northwestern Ontario, stratigraphy and correlations in the (J. D. Bateman), 619

Bison in Herculaneum, Missouri (E. C. Olson), 39, 56

Blackstone, D. L., Jr. *Structure of the Pryor Mountains, Montana*, 590
  Cited on structure of Pryor block, Montana (R. T. Chamberlin), 704

Blackwelder, Eliot. Cited on fluting and faceting of rock fragments (J. H. Maxson), 748

Blake, W. P. Cited on forms produced by wind in southern California (W. H. Maxson), 724

Blatchley, W. S. Cited on formation of helictites (L. C. Huff), 648

Block behavior, types of (R. T. Chamberlin), 688

Blocks, limestone, in Joliet limestone, northeastern Illinois (J H. Bretz), 361

Bloomer, Robert O., and Joseph K. Roberts. Catalogue of topographic and geologic maps of Virginia. Review by L. C. Glenn, 219

"Blowout" or "parabolic" dune (simple) in southern High Plains (F. A. Melton), 126
age of, 137

Blowouts and windrifts (complex) in southern High Plains (F. A. Melton), 134
age of, 137

Blue Ridge Range, Virginia (E. C. H. Lammers), 305

The Bogotá fault, Colombia, South America (T. Clements), 660

Boone, Lee. Marine *algae, coelenterata, annelida, echinodermata, crustacea,* and *mollusca.* Review by Raymond E. Janssen, 220

Boundary structure of Yellowstone Valley, Montana (L. Horberg), 279

Bovidae in Herculaneum, Missouri, region (E. C. Olson), 56

Bowen, Norman L. *Progressive metamorphism of siliceous limestone and dolomite,* 225
Waldemar Christopher Brøgger, 1851–1940, 444
Review of A descriptive petrography of the igneous rocks, Vol. I. By Albert Johanssen, 219

Breakers, origin and behavior of, in Lake Michigan (O. F. Evans), 505

Breccia, Max Meadows fault (B. N. Cooper and J. C. Haff), 945

Breccias, early basic, of Yellowstone Park, Montana (L. Horberg), 283

Bretz, J Harlen. *Solution cavities in the Joliet limestone of northeastern Illinois,* 337

Brøgger, Waldemar Christopher, 1851–1940 (N. L. Bowen), 444

Broun, G. Cited on lows and balls on shores of Baltic Sea (O. F. Evans), 479

Bruce, E. L. Cited on geologic sequence east of Slate Lake, Ontario (J. D. Bateman), 634
Cited on geologic sequence west of Slate Lake, Ontario (J. D. Bateman), 635

Brunhes, J. Cited on eolian potholes in rocks of Nubian Desert (J. H. Maxson), 725

Bryan, Kirk. Cited on wind-faceting (J. H. Maxson), 734
Cited on solution-faceting (J. H. Maxson), 739

Bucher, W. H., *et al.* Cited on alternating symmetry of Bighorn Range (R. T. Chamberlin), 680

Buried cedar trees and peat bogs as evidence of submergence of Bermuda (A. S. Knox), 770

Buried Eocene sediments near Ventura, California, metamorphism of, and of sediments of the deep well near Wasco, California (J. B. Lyons), 436
Illinoian soils and weathered zones, Indiana (W. D. Thornbury), 455

Burlington (Mississippian) limestone in central Missouri (W. A. Tarr and W. D. Keller), 199

Burwash, E. M. Cited on classification of sediments, Birch–Slate Lakes district, Ontario (J. D. Bateman), 627, 630

Butts, Charles. Cited on structure of Little North Mountain, Virginia (R. S. Edmundson), 534

Buwalda, J. P. Cited on faulting in southern California (W. J. Miller), 399

Calcareous shales, cleavage in (E. C. H. Lammers), 304

California, Crestmore, merwinite from (N. L. Bowen), 252
Mammoth embayment, tectonics of the rhyolite in the (J. R. Chelikowsky), 421
a record of Lyonothamnus *in Death Valley,* (D. I. Axelrod), 526
southern, some features of faulting in (W. J. Miller), 385
Ventura, metamorphism of the deeply buried Eocene sediments near, and of the sediments of the deep well near Wasco, California (J. B. Lyons), 436
Wasco, metamorphism of sediments of the deep well near, and of the deeply buried Eocene sediments near Ventura, California (J. B. Lyons), 436

Cambrian quartzite pebbles, Fincastle, Virginia (E. C. H. Lammers), 305

Camelidae in Herculaneum, Missouri (E. C. Olson), 54

Campbell, M. R. Cited on occurrence of limestone breccia near Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 970

Canadian River Valley, Texas (F. A. Melton), 139
Canis dirus in Herculaneum, Missouri, region (E. C. Olson), 38
Canis dirus Leidy in Herculaneum, Missouri, region (E. C. Olson), 42
Canis latrans Say in Herculaneum, Missouri, region (E. C. Olson), 42
Capillarity, effect of (M. K. Hubbert), 884
influence of, upon a two-fluid interface (M. K. Hubbert), 889
Carnivora in Herculaneum, Missouri, region (E. C. Olson), 42
Catalogue of topographic and geologic maps of Virginia. By Joseph K. Roberts and Robert O. Bloomer. Review by L. C. Glenn, 219
Cause of current in elliptical bays, South Carolina (C. W. Cooke), 210
Cavities in Joliet limestone, northeastern Illinois (J H. Bretz), 379
solution, in the Joliet limestone of northeastern Illinois (J H. Bretz), 337
Cavity fillings, composition of, Joliet limestone, northeastern Illinois (J H. Bretz), 365
Cayugan group in Little North Mountain, Virginia (R. S. Edmundson), 541
Cenozoic periods of deformation in San Acacia area, New Mexico (C. S. Denny), 101
time of faulting in southern California (W. J. Miller), 408
Cervidae in Herculaneum, Missouri, region (E. C. Olson), 55
Chamberlin, Rollin T. *Diastrophic behavior around the Bighorn Basin*, 673
Review of German-English science dictionary for students in the agricultural, biological, and physical sciences. By Louis de Vries, *et al.* 1022
Review of Notice sur les travaux scientifiques de M. Emm. de Margerie, 558
Cited on influence of pre-Cambrian rocks and structures upon deformation around Bighorn Basin (D. L. Blackstone, Jr.), 617
Changes, climatic, in southern High Plains (F. A. Melton), 136
evidences of postglacial, in sea-level, the peat deposits of Bermuda and (A. S. Knox), 767
Characteristics of minable coal of West Virginia. By A. J. W. Headlee and John P. Nolting, Jr. Review by C. W. Sternberg, 1024
Chelikowsky, J. R. *Tectonics of the rhyolite in the Mammoth embayment, California*, 421
Chelonia in Herculaneum, Missouri, region (E. C. Olson), 41
Chert in the Grenville marble, Ross township, Renfrew County, Ontario (W. A. Tarr and W. D. Keller), 196, 199
Chibougamau series older than Mistassini series, Quebec (G. W. H. Norman), 515
Chronology, glacial, weathered zones and, in southern Indiana (W. D. Thornbury), 449
Clapp, F. G. Cited on classification of silts of southwestern Indiana (W. D. Thornbury), 459
Clark, B. L. Cited on age of faulting in southern California (W. J. Miller), 410
Classification, tentative, of sand dunes and its application to dune history in southern High Plains (F. A. Melton), 112
Cleavage in calcareous shales (E. C. H. Lammers), 304
and composition of calcareous shales, relationship between (E. C. H. Lammers), 305
Clements, Thomas. *The Bogotá fault, Colombia, South America*, 660
Climatic changes in southern High Plains (F. A. Melton), 136
succession during Tertiary time of western Mohave area (D. I. Axelrod), 528
Clinton formation, Little North Mountain, Virginia (R. S. Edmundson), 541
Cloos, Ernst and Hans. Cited on pre-Cambrian structure of Bighorn uplift (R. T. Chamberlin), 703
Cited on structure of Pryor Mountains, Montana (D. L. Blackstone, Jr.), 617
Coconino Plateau, Grand Canyon district (J. H. Maxson), 740
Co-existence in equilibrium of calcite, dolomite, and quartz (N. L. Bowen), 236
of larnite and spurrite (N. L. Bowen), 234

Colombia, South America, The Bogotá fault (T. Clements), 660

Colubridae in Herculaneum, Missouri, region (E. C. Olson), 41

Columnar jointing in dikes and sills, Hawaii (C. K. Wentworth and A. E. Jones), 993

"Common loess" in Indiana (W. D. Thornbury), 459

Comparison of Indiana glacial stratigraphy with that of Illinois (W. D. Thornbury), 467

Complex dune forms in southern High Plains (F. A. Melton), 130

Composition of cavity fillings, Joilet limestone, northeastern Illinois (J H. Bretz), 365
and cleavage of calcareous shales, relationship between (E. C. H. Lammers), 305
of gravels below basalt, Yellowstone Valley, Montana (L. Horberg), 286
of metamorphosed, siliceous, dolomitic limestone (N. L. Bowen), 235

Conditions favorable for development of elliptical lakes in South Carolina (C. W. Cooke), 210

Conglomerate dikes, Draper Mountain area in Virginia (B. N. Cooper and J. C. Haff), 957

Connections and shapes of solution cavities in Joliet limestone, northeastern Illinois (J H. Bretz), 340

Contact and endomorphic phenomena associated with a part of the Idaho batholith (A. L. Anderson and V. Hammerand), 561

Contributions to the paleobotany of Middle and South America. By Edward W. Berry. Review by Louise Barton Freeman, 112

Cooke, C. Wythe. *Elliptical bays in South Carolina and the shape of eddies*, 205

Cooper, Byron N. Geology of the Draper Mountain area, Virginia. Review by Louise Barton Freeman, 1024
and John C. Haff. *Max Meadows fault breccia*, 945

Cornish, V. Cited on formation of sand dunes (F. A. Melton), 122
Cited on dune topography (F. A. Melton), 132
Cited on relation between low and ball (O. F. Evans), 491
Cited on subaqueous ridges along British coast (O. F. Evans), 476, 480

Cornucopia, Oregon, dilation and replacement dikes of (G. E. Goodspeed), 176

Correlations and stratigraphy in the Birch–Slate Lakes district, northwestern Ontario (J. D. Bateman), 619
within Birch–Slate Lakes area, Ontario (J. D. Bateman), 632

Corylus in Bermuda (A. S. Knox), 774

Courses, summer field, in geology (R. P. Sharp), 310

Crazy Mountain Basin, Wyoming (R. T. Chamberlin), 682

Crestmore, California, merwinite from (N. L. Bowen), 252

Cricetidae in Herculaneum, Missouri, region (E. C. Olson), 46

Crocodilia in Herculaneum, Missouri, region (E. C. Olson), 42

Crocodilidae in Herculaneum, Missouri, region (E. C. Olson), 42

Croneis, Carey. Review of Foraminifera, their classification and economic use. By Joseph A. Cushman, 552
Review of Geological expedition to the Lesser Sunda Islands under the leadership of H. A. Brouwer, Vol. I, 553
Review of Index of paleozoic coral genera. By W. D. Lang, Stanley Smith, and H. D. Thomas, 781
Review of Manuel de paléontologie animale. By Léon Moret, 670

Crooked Creek fault, Montana (D. L. Blackstone, Jr.), 603

Cross section showing breccia along Max Meadows fault, Virginia (B. N. Cooper and J. C. Haff), 957

Cross sections demonstrating relation of subsurface fracturing to surface folding (D. L. Blackstone, Jr.), 609
geologic, Big Pryor Mountain, Montana (D. L. Blackstone, Jr.), 608
geologic, Dryhead fault area, Montana (D. L. Blackstone, Jr.), 607
geologic, of Little North Mountain, Virginia (R. S. Edmundson), 546
geologic, of Sykes Spring area, Wyoming (D. L. Blackstone, Jr.), 608

Cross winds in windrifts (complex) in southern High Plains (F. A. Melton), 134

Crotolidae in Herculaneum, Missouri, region (E. C. Olson), 41

Crush conglomerate, description of, Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 964
distribution of, Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 953

Crystalline, pre-Cambrian, rocks of north-central Utah (A. J. Eardley and R. A. Hatch), 58

Currents, rotating, figure assumed by (C. W. Cooke), 208

Currier, L. W. Cited on breccias near Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 971

Curry, H. Donald. Cited on Furnace Creek formation, California (D. I. Axelrod), 527

Cushman, Joseph A. Foraminifera. Their classification and economic use. Review by Carey Croneis, 552

Dalloni, M. Géologie appliquée de l'Algérie. Review by Louise Barton Freeman, 558

Daly, R. A. Cited on depth of eolian limestone (A. S. Knox), 769

Dana, E. S. Cited on formation of helictites (L. C. Huff), 651

Darcy, Henry. Cited on method involved in ground-water motion experiment (M. K. Hubbert), 791
experiments on flow of ground water (M. K. Hubbert), 787

Darcy's law for gases (M. K. Hubbert), 823

Date of discovery of metamorphic minerals (N. L. Bowen), 264

Death Valley, California, a record of Lyonothamnus *in* (D. I. Axelrod), 526
wind-fluting in (J. H. Maxson), 726

De Beaumont, Elie. Cited on origin of lows and balls (O. F. Evans), 503

Decarbonation, progressive, as progressive metamorphism (N. L. Bowen), 232

Deep Creek Ridge fault, Montana (L. Horberg), 280

Deep well near Wasco, California, metamorphism of sediments of the, and of the deeply buried Eocene sediments near Ventura, California (J. B. Lyons), 436

Deeply buried Eocene sediments near Ventura, California, metamorphism of sediments of the deep well near Wasco, California, and of the (J. B. Lyons), 436

Deformation in cavity walls, Joliet limestone, northeastern Illinois (J H. Bretz), 357
of fault blocks, southern California (W. J. Miller), 404
of fillings, Joliet limestone, northeastern Illinois (J H. Bretz), 367
relation of plasticity and cleavage to (W. J. Mead), 1013

Denny, Charles S. *Tertiary geology of the San Acacia area, New Mexico*, 73

Depositional basins, Santa Fe formation, New Mexico (C. S. Denny), 94

Deposits, the peat, of Bermuda and evidences of postglacial changes in sea-level (A. S. Knox), 767

Depth of peat and postglacial time, Bermuda (A. S. Knox), 776

Descriptive petrography of the igneous rocks, a. By Albert Johanssen. Review by N. L. Bowen, 219

Simple dune forms in southern High Plains (F. A. Melton), 115

Slabs and detached roof blocks in Joliet limestone, northeastern Illinois (J H. Bretz), 348

Slichter, C. S. Cited on ground-water motion (M. K. Hubbert), 903, 904

Slickolites in Joliet limestone, northeastern Illinois (J H. Bretz), 353, 355

Slocom, A. W. Cited on Niagaran limestone, Illinois (J H. Bretz), 344

Slope, the leeward, of the Koolau Range, Oahu, the intrusive rocks of (C. K. Wentworth and A. E. Jones), 975

Smith, Stanley, *et al.* Index of Paleozoic coral genera. Review by Carey Croneis, 781

Soil conservation. By Hugh Hammond Bennett. Review by Louise Barton Freeman, 560
profiles in glacial drift in Indiana (W. D. Thornbury), 450

Solution cavities in the Joliet limestone of northeastern Illinois (J H. Bretz), 337

Solution-faceting (J. H. Maxson), 739
rate of (J. H. Maxson), 744

Solvent and time of solution of cleavage in calcareous shales (E. C. H. Lammers), 308

Soundings made across lows and balls, Lake Michigan (O. F. Evans), 489

Source book in geology, a. By Kirtley F. Mather and Shirley L. Mason. Review by Louise Barton Freeman, 107
—bordering lee dunes (complex) in southern High Plains (F. A. Melton), 134
—bordering lee dunes (simple) in southern High Plains (F. A. Melton), 122

South America, the Bogotá fault, Colombia (T. Clements), 660
Carolina, elliptical bays in, and the shape of eddies (C. W. Cooke), 205

Southern California, some features of faulting in (W. J. Miller), 385
High Plains, a tentative classification of sand dunes and its application to dune history in (F. A. Melton), 113

Indiana, weathered zones and glacial chronology in (W. D. Thornbury), 449
margin of the Absaroka Range, Wyoming, geology along the: discussion (C. M. Bauer), 324
Spilogale cf. *interrupta* (Rafinesque) in Herculaneum, Missouri, region (E. C. Olson), 45
Spurrite, formation of (N. L. Bowen), 232
Squamata in Herculaneum, Missouri, region (E. C. Olson), 41
Stearns, H. T. Geologic map and guide of Oahu, Hawaii. Review by Louise Barton Freeman, 672
Cited on geologic survey of Oahu (C. K. Wentworth and A. E. Jones), 977
Stearns, Norah Dowell. Cited on laboratory tests on physical properties of water-bearing materials (M. K. Hubbert), 919
Sternberg, C. W. Review of Characteristics of minable coal of West Virginia. By A. J. W. Headlee and John P. Nolting, Jr., 1024
Review of The physiography of Victoria. By E. Sherborn Hills, 1023
Stockdale, Paris B. Cited on impressed pebbles from European and Canadian localities (E. S. Bastin), 214
Straley, H. W. III. Review of Internal constitution of the earth. By B. Gutenberg (ed.), 108
Stratigraphy of Bogotá, South America (T. Clements), 663
and correlations in the Birch–Slate Lakes district, northwestern Ontario (J. D. Bateman), 619
of Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 946
of Little North Mountain, Virginia (R. S. Edmundson), 537
and paleontology of the Lower Mississippian of Missouri, Part II. By various authors. Review by Raymond E. Janssen, 332
of Pryor Mountains, Montana (D. L. Blackstone, Jr.), 595
"Straw" stalactites (L. C. Huff), 643
Stream erosion as cause of sculpture of rock fragments (J. H. Maxson), 718
-faceting (J. H. Maxson), 721
-fluting (J. H. Maxson), 718
Structural asymmetry in western Wyoming, reversal of (R. T. Chamberlin), 679
geology of Pryor Mountains, Montana (D. L. Blackstone, Jr.), 596
section of deformed fill in cavity in Joliet limestone, northeastern Illinois (J H. Bretz), 373
relations of Yellowstone Valley, Montana (L. Horberg), 276
relationships, Bogotá, South America (T. Clements), 666
section of Monserrate, South America (T. Clements), 667
sections of the San Acacia area, New Mexico (C. S. Denny), 78
significance of the Pryor relationships, Montana (D. L. Blackstone, Jr.), 612
Structure of Draper Mountain area, Virginia (B. N. Cooper and J. C. Haff), 946
of Farmington Canyon complex (A. J. Eardley and R. A. Hatch), 61
geologic, San Acacia area, New Mexico (C. S. Denny), 99
of Koolau Range, Hawaii (C. K. Wentworth and A. E. Jones), 977
of Little North Mountain, Virginia (R. S. Edmundson), 544
of Mistassini region, Quebec (G. W. H. Norman), 521
of the Pryor Mountains, Montana (D. L. Blackstone, Jr.), 590
of the rhyolite, Mammoth embayment, California (J. R. Chelikowsky), 427
Structures, foliate, folding, rock flowage and: studies for students (W. J. Mead), 1007
Studies on the Ice Age in India and associated human cultures. By H. de Terra and T. T. Patterson. Review by Louise Barton Freeman, 110
of profiles of soundings made across lows and balls, Lake Michigan (O. F. Evans), 489
for students: folding, rock flowage, and foliate structures (W. J. Mead), 1007
Stylolites, pressure, a note on: discussion (E. S. Bastin), 214
Subaerial erosion as cause of sculpture of rock fragments (J. H. Maxson), 723
Subaqueous ridges, migration of, Lake Michigan (O. F. Evans), 500
Submergence of Bermuda, topographical evidence of (A. S. Knox), 769
in modern time, evidence of, in Bermuda (A. S. Knox), 777

Substages of Wisconsin till in Indiana (W. D. Thornbury), 452
Summer field courses in geology (R. P. Sharp), 310
Surfaces, bare, of loose sand in complex dune forms, southern High Plains (F. A. Melton), 131
bare, of loose sand in simple dunes (F. A. Melton), 115
Swinnerton, A. C. Cited on caves of Bermuda (A. S. Knox), 770
Cited on ground-water motion (M. K. Hubbert), 927
Sykes Spring fault, Wyoming (D. L. Blackstone, Jr.), 603
Systems, dune, of different age in southern High Plains (F. A. Melton) 137

Tables of summer field courses in geology (R. P. Sharp), 313, 320
Taljaard, M. S. Cited on stream-faceted pebbles in South Africa (J. H. Maxson), 721
Tanupolama in Herculaneum, Missouri, region (E. C. Olson), 38
Tapirella in Herculaneum, Missouri, region (E. C. Olson), 38, 50
Tapiridae in Herculaneum, Missouri, region (E. C. Olson), 50
Tarr, R. S. Cited on postglacial submergence of Bermuda (A. S. Knox), 767
and W. D. Keller. *Chert in the Grenville marble, Ross township, Renfrew County, Ontario*, 196
Tayassuidae in Herculaneum, Missouri, region (E. C. Olson), 56
Tectonics of the rhyolite in the Mammoth embayment, California (J. R. Chelikowsky), 421
Temblor formation, California (J. B. Lyons), 436
Temperature of metamorphism of siliceous limestone and dolomite (N.L. Bowen), 226
range in study of effect of pressure on rigidity of rocks (F. Birch and D Bancroft), 752
Tentative classification of sand dunes and its application to dune history in the southern High Plains (F. A. Melton), 113
Terra, H. de, and T. T. Patterson. Studies on the Ice Age in India and associated human cultures. Review by Louise Barton Freeman, 110
Tertiary age of dikes in Pacific Northwest (G. E. Goodspeed), 175
age of Mammoth embayment, California (J. R. Chelikowsky), 431
basins of southwestern Montana (L. Horberg), 278
geology of the San Acacia area, New Mexico (C. S. Denny), 73
"lake beds," Yellowstone Valley, Montana (L. Horberg), 283
volcanic rocks (Miocene?), New Mexico (C. S. Denny), 76
Tester, A. C. Review of Recent marine sediments. By Parker D. Trask (ed.), 328
Theis, Charles V. Cited on ground-water motion (M. K. Hubbert), 902
Theory of ground-water motion, the (M. King Hubbert), 785
Thiem, G. Cited on method of measurement of permeability (M. K. Hubbert), 853
Thom, W. T., Jr., *et al.* Cited on alternating symmetry of Bighorn Range (R. T. Chamberlin), 680
Thomas, H. D., *et al.* Index of Paleozoic coral genera. Review by Carey Croneis, 781
Thornbury, William D. *Weathered zones and glacial chronology in southern Indiana*, 449
Thrust faulting, importance of, in southern California (W. J. Miller), 392
of Grenville gneisses northwestward against the Mistassini series of Mistassini Lake, Quebec (G. W. H. Norman), 512
Tilley, C. E. Cited on discovery of calcium orthosilicate (N. L. Bowen), 226
Time of solution and nature of solvent in cleavage in calcareous shales (E. C. H. Lammers), 309
Timiskaming subprovince, pre-Cambrian rocks of, Quebec (G. W. H. Norman), 514
Tonto Platform, Grand Canyon district (J. H. Maxson), 740
Topographical evidence of submergence of Bermuda (A. S. Knox), 769
Topography of Little North Mountain, Virginia (R. S. Edmundson), 535
Tower Falls, Yellowstone Park (L. Horberg), 285
"Transection type of blowout" dune in southern High Plains (F. A. Melton), 129

Transverse dune ridge (complex) in southern High Plains (F. A. Melton), 133
dune series in southern High Plains (F. A. Melton), 118
Ranges in southern California (W. J. Miller), 406
Trask, Parker D. (ed.). Recent marine sediments. Review by A. C. Tester, 328
Tremolite, formation of (N. L. Bowen), 237
Tricalcic silicate, formation of (N. L. Bowen), 255
Tuscarora sandstone, Little North Mountain, Virginia (R. S. Edmundson), 541
Types of dikes and sills, Oahu (C. K. Wentworth and A. E. Jones), 1004
Typical Grenville marble, Ontario (W. A. Tarr and W. D. Keller), 201

Uchi–Slate Lake unconformity, Ontario (J. D. Bateman), 632
Udden, J. A. Cited on solution-faceting of of rock fragments (J. H. Maxson), 739
Upland surface of crystalline rocks, Yellowstone, Valley, Montana (L. Horberg), 287
Upper Ordovician formations, Little North Mountain, Virginia (R. S. Edmundson), 540
Triassic age of "Potomac marble" (E. S. Bastin), 215
Urocyon sp. in Herculaneum, Missouri, region (E. C. Olson), 44
Utah, north-central, pre-Cambrian crystalline rocks of (A. J. Eardley and R. A. Hatch), 58

Validity, range of, of Darcy's law (M. K. Hubbert), 819
Valley, Death, California, a record of Lyonothamnus *in* (D. I. Axelrod), 526
of Virginia, shales in (E. C. H. Lammers), 304
Van Pelt, J. R. Cited on minor echelon folds (R. T. Chamberlin), 698
